

CONNIE KIS ANDERSEN

With a reputation as one of Western Australia's finest artists, singer-songwriter Connie Kis Andersen has managed to overcome the 'tyranny of distance' through her hard work ethic, commitment to her dream and her willingness to tour relentlessly in the promotion of her music.

Connie Kis has been the recipient of multiple awards – both in song writing and as an artist. Highlights include being named Western Australia's *Best Independent Female Country Artist* three times, winning the *Best Independent Country Music Album* for Western Australia twice, and receiving an Australian TIARA for Female Vocalist in 2012. She has enjoyed chart success in Australia, including several top five hits on the Australian Country Tracks Charts.

Her most recent single; ***On the Other Side of Midnight*** from her new album; **Naked Under the Radar** remained in the national *Australian Country Tracks* Top 40 charts for over 20 weeks, peaking at #2.

What makes this award winning songwriter/singer unique is that after a rewarding profession in Special Education, she returned to her first love of music and successfully pursued a new career as an Independent Recording Artist and Radio Producer/Host for her internationally syndicated program; **Showcase Australia**.

Facing some of the challenging twists and turns that life's highway has taken her down, Connie Kis reveals her deep belief in self and purpose through all that she does.

This inspiring woman continues to follow her true calling and shines as an example for others to never lose sight of their dreams. Connie Kis is a true stylist, not to be missed.
